KiD COLA: ARTIST BIOGRAPHY

Exploding onto the scene at the end of 2008 with remixes of The Secret Machines and Crystal Fighters, KiD COLA immediately caught the attention of music fans, producers and radio shows around the globe.

Within months this 21-year-old producer had tracks playing on Radio 1 and Kiss FM, as well as featuring in IDJ magazine, winning over such scene luminaries as Frankmusik, Kissy Sell Out, Andy George & Jaymo and Loose Cannons.

The hype has led to KiD COLA playing many shows around the U.K. He's appeared alongside upcoming artists like Grum and Fenech-Soler as well as high profile sets supporting Laidback Luke at London's Matter super-club.

Now with his first single 'First Floor Elevator' out on Parisian label Madame Visage and two official remixes for Kerowack and The Teasers due out in the summer of 2009, we can all expect big things from this young producer in the coming months.
